

Appendix D – Law Enforcement and Medical Resources

I. Law Enforcement

The University recognizes that in an emergency situation where a person's health or safety is at risk, trained police officers are in the best position to quickly and effectively respond. We encourage all individuals to seek assistance from a medical provider and/or law enforcement immediately after an incident of sexual misconduct to address any concerns about personal safety and physical and emotional well-being. This allows for the preservation of evidence and the ability to begin a timely investigative and remedial response. The University will assist any Drexel University Community member to get to a safe place and will provide transportation to the hospital or local law enforcement.

Not all sexual misconduct prohibited by this Policy constitutes criminal behavior. Law enforcement authorities can assist in determining whether the conduct experienced was criminal in nature and warrants a criminal complaint. If the incident occurred off campus, an officer can assist in contacting the appropriate law enforcement agency.

Any member of the University Community who has experienced or is aware of an incident of sexual harassment or misconduct is encouraged to seek the assistance of the Drexel University Department of Public Safety or call 911. A Report can be made 24 hours a day, 7 days a week.

II. Medical Treatment

Students and employees are strongly encouraged to seek medical treatment. A medical provider can provide emergency and/or follow-up medical services, and the opportunity to discuss any health care concerns in a confidential medical setting. A medical exam following a sexual assault has two goals: first, to diagnose and treat the full extent of any injury or physical effect (sexually transmitted infection or pregnancy) and second, to

properly collect and preserve evidence. There is a limited window of time (typically 72 to 96 hours) following an incident of sexual assault to preserve physical and other forms of evidence.
