samplestudent.com | samplestudent.github.com

I am an enthusiastic software and full-stack web developer that has experience with many languages, platforms, and technologies.

I have an insatiable thirst for creation and challenges. I love to bring ideas to life and build projects from the ground up.

And I love tea.

Experience

- *October 20XX-Present*
Web Application Developer
CloudMine

Improved and added features to web user dashboard using Ruby on Rails, Backbone.js, coffeescript, HTML5, and CSS

Implemented backend API support for web features using Ruby on Rails

Worked collaboratively via Git and actively tested code programmatically using unit testing
