

DREXEL UNIVERSITY'S

Accelerated Career Entry (ACE) BSN Admission Requirements

Drexel University's Accelerated Career Entry (ACE) BSN program allows you to take classes and complete your clinicals in an immersive, full-time schedule under the guidance of industry leaders — providing you with the competitive opportunity to accomplish your goal of becoming a nurse in less than a year's time.

ACE BSN Prerequisites

Students must take prerequisite courses before matriculating into the Accelerated Career Entry (ACE) program by the deadlines specified. Please note that we do not waive or substitute prerequisite courses.

The following prerequisite courses must be completed by August 1 for students admitted to the fall term and January 15 for students admitted to the spring term. No exceptions will be made. Applicants with a greater number of completed prerequisites will be considered more competitive. Transfer credit evaluations are not completed until you are admitted into the program.

ACE BSN Applicants must have completed:

- A bachelor's degree
- English Composition: 3 semester credits
- Developmental Psychology (lifespan): 3 semester credits
- Human Nutrition: 3 semester credits
- Statistics: 3 semester credits
- General Chemistry I with lab: 4 semester credits (General or Allied Health Majors)
- One of the following Anatomy and Physiology selections:
Anatomy I with lab AND Physiology I with lab: 4 semester credits each, OR
Anatomy and Physiology I AND Anatomy and Physiology II with lab: 4 semester credits each
- Physiology with lab OR Anatomy and Physiology II with lab: 4 semester credits
- Microbiology with lab: 4 semester credits

Three of the four science prerequisites need to be completed at the time of application, with the anatomy/physiology sequence courses being two of them.

Note: Prerequisites are based on semester-based institutions. For example, if the anatomy/physiology courses are taken at a quarter-based institution, Anatomy/Physiology I, II, and III must be taken to meet the requirement.

Drexel University Course Equivalencies

You may take prerequisite courses at any regionally accredited university or community college, and you must earn a grade of C or higher for credits to transfer. Online courses can be accepted if they were taken at a regionally accredited college or university.

Please Note: Anatomy, physiology, and microbiology must be taken within five years prior to enrollment in the ACE program. All other prerequisite courses must be taken within 10 years prior to enrollment.

ATLANTIC CAPE COMMUNITY COLLEGE

DREXEL UNIVERSITY	ATLANTIC CAPE COMMUNITY COLLEGE
English Composition I	ENGL 101 Composition I
Developmental Psychology	EDUC 240 Child Development
Statistics	MATH 220 Statistical Methods
